

The Departments of Biology and Chemistry/Physics are pleased to announce the

2026 SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP (SURF)

May 26th - July 17th, 2026

This opportunity allows students to participate in 8 weeks of summer research with a faculty member. Not only will selected fellows in this program expand on existing skills and learn new ones, they will also receive a research stipend and on-campus housing at no additional cost.

Any undergraduate student who will have completed BI 151 & 152 or CH 101 & 102 before Summer 2026 with a GPA of no less than 2.5 is eligible to apply.

Application, questionnaire, and resume are due by February 20th, 2026.

If interested, contact Drs. Barnett, Huynh, or Leach for more information.

Application forms are available from Aisling Doyle in Hurd Science Center 135.
